

# Case Study

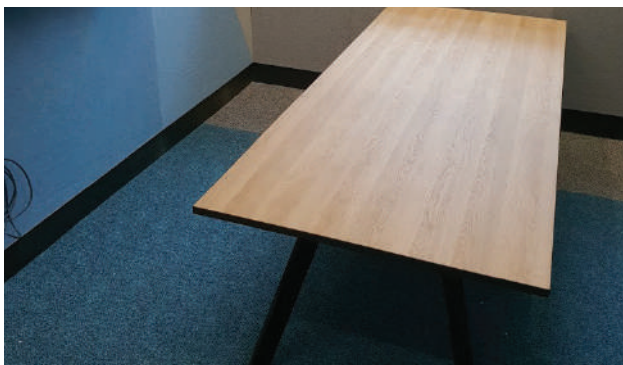

## RMIT: College of Science, Engineering & Health (SEH)

Over the past few years, we have worked closely with a variety of RMIT project staff, and have a proven ability to deliver on time and without hassle.

Continuity with a trusted provider was very important to RMIT, and AOFS held a big advantage, having successfully completed several similar projects in the same area.

RMIT required a furniture provider who could deliver a large amount of desking and loose furniture on a set schedule over a 3-month period. AOFS were able to modify an existing modular desking system to suit the client's specific requirements, ensuring availability and speed of delivery.

Our team worked around the clock to ensure deliveries were made early in the morning before other trades arrived, so that we could have uninterrupted access to the important services.

The project was completed on time, on budget, and to the high quality standards that RMIT have come to expect from their premier furniture provider.

*“3 months, multiple shifts  
and 750 desks.”*
